

April 2020

Hello Elementary Teachers!

Thank you for all you are doing to navigate distance learning for your students. We at Learning Law and Democracy have created some lessons to support your students. We have developed the lessons as a “**Super Civics Challenge**” to inspire Super Citizens!

These lessons are designed to support the MN Academic Standards for Social Studies, specifically the citizenship and government benchmarks. Please note that many of the challenges have built-in accountability. Feel free to use what you believe will best support your students and families.

We have provided a brief letter below that you may wish to send with the lessons. If you are looking for more resources, visit our **Super Civics Toolbox** at <https://teachingcivics.org/programs/super-civics/>.

Thank you, again, for your efforts.

Your friends at Learning Law and Democracy

Jennifer Bloom

Hello Families!

Attached you will find lessons to help your elementary student explore the social studies standards for their grade level. The lessons are set up as “Challenges.” There are 10 social studies challenges meant to be completed over time versus all in one day. These lessons are in both video format and in PDF format. The video format provides audio support for your learner. Feel free to use the format that is best for your family. If you have more than one elementary student in your home, they may wish to work on the lessons together. We have also included a challenge task sheet with a certificate of completion to help your child track progress on the challenges. Should you have questions, reach out to your teacher for support.
